

All Systems DVR

Digital Video Recorder

Product Specification

OS : Window XP

16 composite video inputs (BNC connectors)

JPEG video compression

Display frame rate: 7 fps (320x240 pixels) per channel

Recording frame rate: 6 fps ~ 7 fps per channel

Video Format: NTSC and PAL

320x240 pixels, 640x480 (NTSC & PAL) 16-bit true color

Auto Scan with full screen display under
1,4,6,8,10,12,13,16-camera display modes

Four level password control: Administrator, Manager,
Operator, and User

Scheduling function: Monitoring, Recording, Networking
and Backup schedules

Backup device: Disk Array, tape drive, CD-R and ZIP drive

Support Pan/Tilt/Zoom (PTZ) cameras

Support UPS (Uninterruptible Power Supply)

Motion Detection

High performance motion detection algorithm

Adjustable motion detection sensitivity

Programmable multiple detection zones for each camera

Intelligent shield preventing private area from detection

Recording

Recording modes: Alarm trigger / Motion

Detection / Continuous / Schedule recording

Schedule recording & backup by date or by
weekday

Masking zone blank under recording modes

Audio recording

View Log

Real time playback: immediate access
playback

Complete playback control: playback,
backwardplayback, fast forward/backward

speed control, zoom in/out

single-frame image print out or save

Log file management for each camera

Remote Control & WebCam

Simultaneous multiple remote surveillance via
standard web browsers

Remote recording / monitoring / backup /
retrieve through LAN or Internet

Built-in HTTP server
